There was a ripple of excitement caused in society circles by the exposure of a certain little scheme, in which two of our leading society belles are the interested parties. We do not mean to say that these two young ladies are the only ones involved in this hazardous scheme; far from it! They have chosen from the "lords of creation" two gallant young men, with whose assistance they hope to desert the state of single blessedness. They do not propose to be married in the old prosaic style, but prefer the plan of eloping, thereby adding a little romance to the wedding. We would advise mothers and fathers to be constantly on the alert for the next forty-eight hours, and keep a watchful eye on their daughters.

RAILROAD ITEMS.

N. D. Sewell, McNairy station freight brakeman on the Mobile and Ohio Railroad, while coupling cars near Trenton, made a misstep, was struck by the train, knocked down and both legs badly crushed, though singularly no bones were broken, and it is thought the young man will recover.

Nashville Union: The Illinois Central has built some valuable feeders to its main line in Mississippi. The report that this company is looking over the ground with the view of locating additional branches into rich traffic-yielding districts of the south is probably correct, and the lines will be as great sources of profit as those already in operation.

Committee Report.

We clip the following from the report of the college committee made to the board of Mayor and Aldermen:

We find on examination of the building, that there are 28 window lights broken and out of the windows; and the east and south side of south corner wing of building cracked, corner and upper outside front floors weather damaged and rotten; roof out of repair and leaky; no keys to doors and two of them without bolt catches; 1 hole cut in the lower floor; lower inside floor damaged by splitting kindling on it; upper ceiling in lower room apart in two or three places and weather damaged by leaks and rain blowing in at windows; ceiling in upper room damaged by leaks; scuttle in roof rotten and no lid to it; plastering in upper room soiled; two air grates out. The building we consider in bad condition and very much out of repairs. On examination of the fence around college lot we find the side next to Wyont's partly down and twenty-seven posts rotted off; on side next to Williamson's property we find twenty posts rotted off and two panels of fence gone; on side next to Vanhook's, twenty-two posts rotted off; on front side ten posts rotted off, and several planks gone, and we find there is no gate or bars at west corner, entirely open to the public. We find the college grounds used for general pastorage by cows, hogs, etc., going in and out at their will.

Hearts of Gratitude.

Since our last communication the clouds have gathered together and beautifully watered our crops, making us all feel cheerful and thankful. The prospect is good for a bountiful yield and good prices for our growing grain and cotton, thus giving us a reasonable return for our labors. While our farmer friends are making merry over their prospects, we too, are glad. They will all want a place to trade after their crops are garnered. We will be in the ring with a large and well selected stock, with prices to suit the times. With money in hand the farmer can get what he wants at very low prices.

FOR CONGRESS.

When our great president uttered his famous aphorism that public office is a public trust, he struck the keynote of the highest political philosophy. It contains instructions for the people as well as for those who seek office at their hands; for the people, because it admonishes them to exercise due care and deliberation in the selection of those who are to serve them; for those who seek office, because it reminds them that they are but the servants of the people, and bound to labor solely for the maintenance and advancement of the people's rights.

More especially do these observations apply to political officers. They should be tried by the severest tests. They represent the majesty of the people, and speak their sovereign will. Those to whom this high embassy is given, should in every respect, be worthy of the great trust reposed in them, worthy to speak for a great constituency, worthy in character, in ability, and in training.

We congratulate the ninth congressional district upon the opportunity of supporting a gentleman in every way equal to these high demands, and we felicitate our good county of Gibson upon the high honor she has in furnishing such a man to the district. By eight year's service on the bench, Judge Carthel has shown in his every act that he regards public office as a public trust. No man could have discharged the difficult and important duties his office devolved upon him with more fidelity, with more conscientious devotion to duty, and with more care, consideration and intelligence than he. If elected to congress, he will carry into that field of labor the same great ability, the same faithfulness and zeal, and high-minded courage that have characterized him as a judge, and that have marked his whole life. Upon him the people can rely with perfect confidence, upon his good sense, upon his promises, upon his diligence, and upon his devotion to their interests. They can rely upon his word and fear nothing, confident that they have one to speak for them who is a true, tried and able friend.

DIED.

Mrs. Ann Williams, wife of Mr. Joe Williams, sr., whose death was mentioned in last week's issue, was one of the oldest ladies in this county, having moved here when a child, there being at that time, only one settlement between here and Trenton. She and her husband celebrated a few years ago their golden wedding. She was a member of the Baptist church, and 73 years old. She leaves her husband, eight children and quite a number of grand children as well as a host of friends to mourn her loss. Her remains were interred at the Jordan cemetery, $3\frac{1}{2}$ miles east of town.

As Sure as Death

That more candidates will be left than elected.

That hand-shaking will decrease after the election.

That we wish we all could be elected.—

That if hard work will do it, "We will get there."

That we are thankful for past favor.—

That we will appreciate your trade and treat you right.

That we will be glad to see you when you come.
